A screenshot of the Coach (TM) for Word 97 software interface. The window title is "Coach (TM) for Word 97". The menu bar includes File, Contents, Bookmark, View, Window, and Help. On the left, there's a vertical toolbar with icons for Home, Back, Forward, and Stop. The main content area is an open book-like window. The left page shows a section titled "1.10 Print out the document" under "PRINTING", with the text: "Now we're going to print out our document! Printing is an important function. This is how you get your page from the PC onto paper, by using a printer." Below this is a section titled "SETTINGS" with the text: "It's always fun to get nice-looking printouts, and with Word 97 you certainly have the best conditions for doing so. Word offers many useful settings that make it easy for you to control your printouts. If you have problems when printing, you might have the wrong settings in the 'Print' or 'Page Setup' dialog box." There are two small icons on the left page: a pencil icon labeled "2902" and an apple icon labeled "Show me". The right page contains the text: "In order to have full control, you have to know about these two menu selections." followed by a banana icon labeled "2906". Below this is a section titled "EXERCISE" with a list of five steps: 1. Open the "Print" dialog box from the menu bar, 2. Make a simple change in the "Print" dialog box, 3. Print the document, 4. Interrupt the printout, 5. Start the printout from the toolbar. There is also a "Test me" button at the bottom of the right page. The page numbers 48 and 49 are at the bottom of their respective pages.
